

LUDECKE

Since 1930. The perfect connection.

Multi-Coupling System

Edition 1.1

**Temp
Tec**
by **LUDECKE**

LUDECKE MADE IN GERMANY 

Multi-Coupling System

The **LUDECKE** multi-coupling system allows you to connect several temperature regulation circuits in one step.

Especially when equipping machines, this provides huge advantages: Now, these tasks can be carried out quickly, easily and accurately. There are no more risks of mixing up important lines.

Thanks to its modular design, every multi-coupling can be put together and configured individually and thus is perfectly tailored to any requirement and application.

Advantages:

- Quick & simultaneous connection of several temperature regulation lines
- Increased safety and efficiency: no risk of mixing up connections/ hoses
- Reduced equipping time
- Easy operation
- Robust, high-quality, leakage-proof and durable
- Huge flexibility due to modular design
- Different plug profiles, materials and connection types

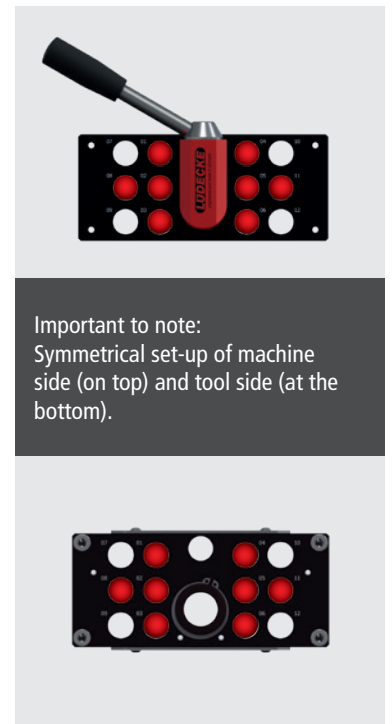

Broad Range

To match the most common plug systems and to guarantee the best compatibility possible, the **LUDECKE** multi-coupling is available for all standard plug profiles. Moreover, you can choose between a version with 6, 12 or 20 connections.

Construction & Assembly

The multi-coupling system is made up of two parts: the machine side (MKM) with a pre-installed lever system as well as the tool side (MKW). The holes on both plates are clearly numbered and help to quickly identify the circuits.

Important to note:
Symmetrical set-up of machine side (on top) and tool side (at the bottom).

You mount the couplings on the machine side and the plugs on the tool side. Both sides can be equipped individually – however, you should pay attention that they are arranged symmetrically.

Overview

LUDECKE offers the multi-couplings with European, international and French plug profile as well as dripless system. The design of the versions always remains identical.

Note: It only takes a few easy steps to put together the systems shown. Should you have any questions, do not hesitate to contact our qualified sales and technical team.

Multi-Coupling System - European Plug Profile

Series MKH Machine Side

DN 9

- Machine side of the two-part multi-coupling system
- Using the lever easily and quickly connects & disconnects the systems
- Can be equipped individually
- For safe and fast production processes
- Also available as high-temperature version on demand
- For temperature regulation applications with hot or cold water as well as tempered oil

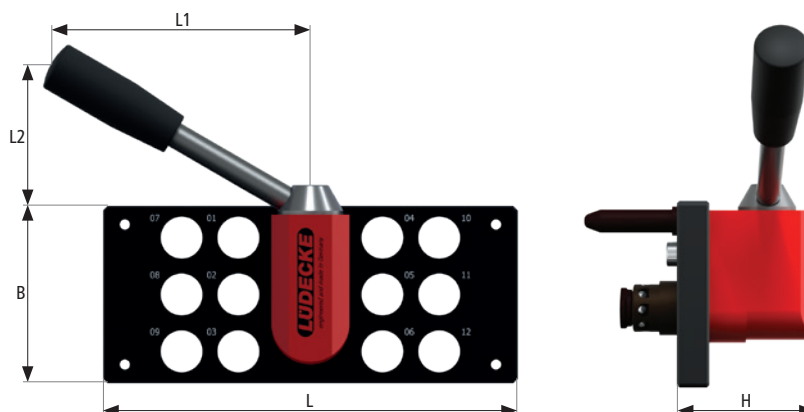

Materials

- Body, valve body, valve: Brass MS 58 plain
- Springs: Stainless Steel 1.4310
- Safety ring: Steel phosphated
- Balls: Stainless steel 1.4034
- Seals: FKM
- Plates, lever case: Aluminium anodized
- Lever including mounting
 - Shaft: Steel zinc-plated
 - Head: Thermoset (PF)
- Handle: Aluminium coated

| Max. Working Pressure | Temperature | DN | Thread | Type of valve | Media |
|-----------------------|----------------|----|---------|--|-------------------------|
| PN 15 bar | +5°C – +200°C* | 9 | ISO 228 | Single Shut-off/ Double Shut-off/ Straight-Through | Air/ Water/ Oil/ Vacuum |

*Subject to media (oil: 200°C, water: 150°C, air: 200°C)

Couplings with quick-fit hose stem (including safety ring)

| Hose connection | L | SW | D | L1 | Weight | Type No. w valve |
|-----------------|------|----|------|------|--------|------------------|
| Hose i.D. 10 | 60 | 22 | 21.5 | 24.2 | 80 | MKML 10 TAB |
| Hose i.D. 13 | 63.7 | 22 | 21.5 | 27.9 | 84 | MKML 13 TAB |

Safety instruction: Only use quick-fit hose stems in combination with suitable quick-fit hoses (up to max. 100°C)!

Multi-Coupling System - Dripless System

Series MKL Tool Side

DN 9

- Tool side of the two-part multi-coupling system
- Using the lever on the machine side easily and quickly connects and disconnects the systems
- Can be equipped individually
- For safe and fast production processes
- Also available as high-temperature version on demand
- For temperature regulation applications with hot or cold water as well as tempered oil

Materials

- Plug (incl. valve body): Brass MS 58 nickel-plated
- Plug valve: Brass MS 58 plain
- Adapter, elbow connector: Brass MS 58 plain
- Safety ring: Steel phosphated
- Seals: FKM
- Plates: Aluminium anodized
- Feet: Steel zinc-plated

| Max. Working Pressure | Temperature | DN | Thread | Type of valve | Media |
|-----------------------|----------------|----|---------|---------------|-------------------------|
| PN 15 bar | +5°C – +200°C* | 9 | ISO 228 | Dripless | Air/ Water/ Oil/ Vacuum |

*Subject to media (oil: 200°C, water: 150°C, air: 200°C)
